## EDUCATION & AWARDS

B.S. COMPUTER SCIENCE, ARIZONA STATE UNIVERSITY

DECEMBER 2024

- Dean's List (Fall 2020, Fall 2022, Spring 2023)
- New American University - Dean Distinction Award (Fall 2020 - Spring 2024) (Scholarship)
- Sun Devil State Award (Fall 2020 - Spring 2024) (Scholarship)

---

## PROFESSIONAL EXPERIENCE

THE GLOBAL TECH EXPERIENCE - CODING FOR WEB, JANUARY - MAY 2023

- Collaborated with diverse teams and worked independently to develop web applications in a bi-weekly virtual internship-style program.
- Received constructive feedback, managed projects, and transformed simple concepts into exciting digital experiences.
- Gained valuable experience with CSS, HTML, and JavaScript through practiced practical application.
- Received real-world applicable guidance from a senior software developer within Google.

---

## PERSONAL PROJECTS

COMPILER (C++), NOVEMBER 2023

- Designed and developed "The Compiler," a program tailored to process input resembling C++ syntax and compile the code into an assembly instruction formatted linked list.
- Executes various structures, including if statements, for loops, while loops, switch statements, and assign statements.

PORTFOLIO (HTML, CSS, JavaScript, Bootstrap), FEBRUARY 2023

- Web application crafted to showcase my personal portfolio featuring engaging interactive icons, smooth transitions, and serves as a visual representation of my passion for design.

BANKING SIMULATOR (JAVA), JUNE 2022

- Simulates a bank account including the functionalities of creating an account, setting a password, logging in, creating checkings/savings accounts, and withdrawing/depositing/transferring funds between those accounts.

---
